## Competition Format and Rules

競技形式および規則

As of THU 19 AUG 2021

### PARALYMPIC COMPETITION FORMAT

The wheelchair fencing event at the Tokyo 2020 Paralympic Games includes men's and women's individual events in all three disciplines, as well as team events for epee and foil. At the Paralympic Games, athletes are divided into three sport classes, class 2-4, under two categories of A and B, depending upon the degrees or types of impairments.

Fencing takes place on a piste measuring 4m x 1.5m. Preparations for each match begin with the fixing of the wheelchairs at a 110-degree angle relative to the centre line in the frames of the piste. The distance between the two fencers is determined by the athlete with the shorter arm reach, who decides whether the distance between competitors will be set at the length of their opponent's reach or their own.

#### Events

##### Individual

There are 12 individual events; six events each for men and women. For all individual events (epee, foil and sabre) in each category at the Tokyo 2020 Paralympic Games, the competition format will be a round of pool phase followed by a direct elimination phase.

Fencers will be divided into pools with each fencer to fence against all other fencers in that pool. Fencers are seeded into the pools based on their current position in the International Wheelchair and Amputee Sports Federation (IWAS) wheelchair fencing world ranking. The effective duration of each bout is three minutes with a maximum of five hits.

A maximum of 30% of the athletes from pools are eliminated. The remaining athletes will qualify for the direct elimination (DE) phase.

Fencers are seeded into the DE phase according to their results in the pool phase. All direct elimination bouts continue until 15 hits have been registered in a maximum of nine minutes divided into three periods of three minutes, with one minute's pause between any two periods. As an exception, for sabre, the first period ends either at the expiry of the three minutes or when one of the fencers has scored eight hits.

Winners of each bout progress to the next step of direct elimination while the losers are eliminated. The winners of each semifinal progress to the gold medal bout while the losers of semifinals will progress to the bronze medal bout.

##### Team events

There are four team events: epee and foil for men and women. The team event is played in a round robin format followed by a direct elimination phase. Teams are seeded based on their current position in the IWAS wheelchair fencing world ranking. Two pools, consisting of three to four teams each per gender and weapon, will contest a round robin. Each team will fence against all other teams in that pool.

Teams comprise of three fencers without a substitute fencer. Each fencer in each team will fence all other fencers in the other team. A competition between two teams consists of nine relay bouts. Each bout lasts until a multiple of five points has been scored for the total score or after three minutes are reached - whichever is sooner. The score is cumulative as each subsequent bout builds on the score of the previous bout, but the designated time is only given for each bout in a non-cumulative way. Each team match is finished either after 45 points are scored or after the ninth bout.

The top two teams in each pool progress to a semifinal phase. The team ranked first in pool A will fight against the team ranked second in pool B. The team ranked second in pool A will fight against the team ranked first in pool B.

The teams ranked third or fourth in each pool are eliminated and ranked according to their seeding after the pools.

The winners of each semifinal will progress to the gold medal bout while the losers of semifinals will contest the bronze medal bout.

## SPORT RULES AND PROCEDURES

### Tiebreak rules

If the scores are tied after the third period in the individual events, there will be a further one minute of fencing time with one fencer randomly chosen and given priority. The winner will be the first fencer to score a valid hit. If no hits are scored, the winner will be the fencer with priority.

If the scores are tied after the ninth bout in the team events, there will be a further one minute of fencing time with one fencer randomly chosen and given priority. The winner will be the first fencer to score a valid hit. If no hits are scored, the winner will be the fencer with priority.

### Competition rules

The wheelchair fencing competition will be held in accordance with the editions of the following documents that are in force at the time of the Games:

- The IWAS Wheelchair Fencing Rules for Competition (available at <http://www.iwasf.com/iwasf/index.cfm/sports/iwas-wheelchair-fencing/rules-documents11/>)
- The IPC Handbook ([www.paralympic.org/the-ipc/handbook](http://www.paralympic.org/the-ipc/handbook))

The IWAS, working with the Tokyo 2020 competition management, will be responsible for the technical control and direction of the wheelchair fencing competition at the Tokyo 2020 Paralympic Games.

## CHANGES SINCE THE RIO 2016 PARALYMPIC GAMES

The competition format differs from the Rio 2016 Paralympic Games in the following ways:

- New events for women sabre (category A and B) have been added.
- Quotas readjusted for equal representation between men and women.
- An additional two teams added for each team event.
- No bouts for final ranking (fifth place onwards) in team events.

## DIFFERENCES FROM THE OLYMPIC GAMES

The competition format differs from that of Olympic Games fencing in the following ways:

- Competition format is round of pools followed by direct elimination rather than just direct elimination in the Olympic Games.
- Team events in the Paralympic Games do not have a substitute fencer.
